

## What would you do if you found the following at CCA visit:

- Refrigerator is on an external wall
- Provider has multiple breaches of less than 12°C for less than 30 minutes, no documentation
- Over stocked fridge and expired vaccines in fridge
- CCA self assessment not completed or returned to you prior to assessment
- Refrigerator plugged into extension cord, that travels around door frame to power point
- Receptionist does daily minimum/maximum recordings
- No minimum/maximum recordings when nurse is away on leave (had 3 weeks off last year)
- OIS or Occupational Health provider has no data logger for use when offsite, unaware of requirement in 2017 National Standards
