

The Immunisation Advisory Centre: 2022 Courses

The Immunisation Advisory Centre (IMAC) provides a range of learning opportunities for health professionals. This includes vaccinator foundation courses and the required two-yearly update. Other courses cover disease, vaccine and administration specific topics. Some courses are online only, whilst others include tutorial-based sessions.

All bookings, assessments and certificates are managed through our online learning platform IMAC Learning. After logging in to your account or creating a new user account (if new to our system) on IMAC Learning, you can browse the catalogue, register and pay for courses.

Visit lms.immune.org.nz for more information.
